## ABOUT ARDBEG HOMES

The Ardbeg Homes development at Stronachlachar is a unique offering of seven energy-efficient rural properties. Situated in the picturesque hamlet of Stronachlachar which is located at the far end of Loch Katrine, each home benefits from a sense of calm that is perfectly in keeping with the idyllic country setting. Working with our highly experienced team, Ardbeg Homes have created these remarkable rural properties, all with a distinct character that reflects the local setting. Perfect as a prestigious family home or enviable holiday retreat these homes are carefully crafted focusing on space, light and functionality.

“...The Coach House has been expertly designed to optimise sociable living and to capitalise on its picturesque surroundings, fitted with a generous array of windows from which to admire the breath-taking natural landscape...”

- Purchasers can choose to amend or add to the Ardbeg standard range. Any changes to the standard range are to be chosen with the assistance of the Ardbeg sales team and are subject to an additional charge, which must be paid for at the time of placing the order.

THE COACH HOUSE IS AN ENERGY EFFICIENT DETACHED HOME, CENTRED ON AN EXPANSIVE OPEN-PLAN RECEPTION ROOM WITH A DOUBLE-HEIGHT APEX CEILING. THE EXCEPTIONAL PROPERTY IS EXPERTLY DESIGNED TO OPTIMISE SOCIABLE LIVING AND TO CAPITALISE ON ITS PICTURESQUE SURROUNDINGS, FITTED WITH A GENEROUS ARRAY OF WINDOWS FROM WHICH TO ADMIRE THE BREATHTAKING NATURAL LANDSCAPE.

It has a truly sublime setting too, in the peaceful community of Stronachlachar, set beside two lochs in the Trossachs National Park, where iconic views abound at every turn. In addition to open-plan living, it features three bedrooms, two bathrooms, private parking, and a large garden. The exclusive home offers a luxurious contemporary lifestyle in an unrivalled location of astounding beauty.

A naturally-lit entrance porch provides a warm welcome and space for walking boots following idyllic strolls in the Trossachs. A hall continues the invitation leading through to the kitchen, living and dining room, which has an impressive open-plan layout. This striking reception area has a sizeable footprint, allowing the space to be carefully zoned for multiple purposes, whether relaxing, dining, socialising, or large-scale entertaining. It features a double-height apex ceiling to add to its sense of grandeur and it benefits from an eco-design wood-burning stove for snug evenings. Furthermore, it is bathed in all-day sun thanks to triple-aspect glazing, which includes windows set in the apex of the vaulted ceiling and bi-folding doors that extend the space out into the garden. Discreetly positioned along two walls, the high-specification German kitchen is also cleverly arranged to emphasise the abundant floorspace. It is fitted with premium cabinets and worksurfaces, and, for that contemporary streamlined finish, it houses a range of integrated Siemens appliances. The Coach House has three spacious double bedrooms, with each room fitted with generous built-in wardrobe storage. The principal bedroom is on the ground floor, accompanied by a neighbouring bathroom, which is conveniently accessed from the hall. The two remaining bedrooms (with additional storage) are on the first floor, served by a family bathroom. Both bathrooms feature quality three-piece suites. For warmth and efficiency, an air source heat pump system and double-glazed windows are planned throughout.

Furthermore, the Coach House has a large garden for families and two private parking spaces.

## AN ECO BUILD WITH IMPRESSIVE GREEN CREDENTIALS

To complement the beauty of its natural surroundings and to ensure the high-quality interiors are always at their best, the Coach House has been extensively upgraded with state-of-the-art environmentally-friendly credentials. The luxury property has been constructed with high-performance structural insulated panels (SIPs) ensuring Passive Standard and unrivaled thermal and energy efficiency with minimal wastage. Furthermore, the exteriors are finished with Lap cladding, which is very resilient and aesthetically pleasing, bringing a natural look that sympathetically fits with the home's stunning location. On the inside, the Coach House is designed to provide maximum warmth and comfort all year round, whilst maintaining optimal efficiency with low and efficient running costs. To this end, it is equipped with an air source heat pump, as well as underfloor heating throughout. It also has a solar-panelled PV (fitted in the roof) to reduce the cost of utility bills and it has a Mechanical Ventilation with Heat Recovery system (MVHR) for a continuous supply of fresh filtered air. High-quality windows and doors add to the already impressive thermal standards and high levels of efficiency. LED lighting is also installed throughout for a bright and airy ambiance and improved environmental performance. All of these green features work together to provide the very best in comfort, quality, and energy and thermal efficiency. In short, the Coach House is an eco-friendly build with its foundations firmly in the future.
